

# Environmental Service Learning

*This list provides a few environmental service learning web resources along with a brief description.*

## Environmental Protection Agency

Youth of all ages will find fun activities and project ideas to learn more about waste reduction, reuse, and recycling. This site also provides information sources, tools, and data to enable youth to collect environmental information for use in projects and reports.

## Seventh Generation

Seventh Generation has provided lessons to help students investigate and understand how the products in their home can effect the indoor environment in which they spend much of their time. They will use this information to help calculate their carbon footprint.
